## Stock And Crop.

In Bath county, Geo. W. Peed lost \$130 worth of sheep through attacks of dogs.

The United States is now buying 1,000 cavalry and artillery horses for service in Cuba.

Ossian Edwards sold last last week in Cincinnati 21 hids of tobacco at \$4.50 to \$11.35.

A. S. Thompson has sold to Henry Caywood his pacing gelding, Eddie B., for a good price.

A. S. Thompson has sold a handsome brown gelding to Mr. Smiley, of Lexington, for a fancy price.

The 121 acres of land near Asteritz belonging to the heirs of Clay Bedford sold to B. J. Clay at \$65 per acre.

Mr. C. Alexander bought from Chicago parties last week one hundred and sixty-five head of No. 1 yearlings.

W. J. Case, who lives in Woodford County, started out this spring with 132 ewes which he valued at \$8.50 a head. The lot produced 100 lambs worth at least \$2.50 per head. He rounded up last Monday, county court day with 55 ewes and 10 lambs, the dogs having killed the rest, 67 ewes and 90 lambs having fallen victims to worthless and blood-thirsty canines.

There is a movement on foot to discontinue the use of Paris green on tobacco. If the tobacco growers will not unite in an agreement to cease the use of the deadly poison, then the matter will be carried to the Legislature and the enactment of a prohibitory law procured, with heavy penalties for its violation.

The green, which adheres to the tobacco even though the manufacturing process, is ever a menace and danger to the life and health of the user of the weed. As well known the insecticide in the green depended upon to do the work for which it is prepared and used is arsenic, a deadly mineral poison. Arsenic may not always kill when first taken, but if used regularly, as in tobacco chewing, it is accumulated in the system and trouble is sure to result. Those familiar with the matter assert that the use of Paris green in tobacco cultivation will have to be stopped or measures to the detriment and loss of the producer will follow.

HAVE you a refrigerator? If not you should have one. J. T. Hinton can supply you. Every style, every price.

Cloudburst Near Danville.

A cloudburst occurred two miles west of Danville Friday afternoon, doing great damage to all growing crops, especially corn. The downpour covered several hundred acres, embracing the old Duke farm.

The cloudburst was followed by a terrible hail which likewise did great damage. Great heaps of hail could be seen on the ground several hours after the clouds had cleared away. In the same section a snow storm raged for ten or fifteen minutes after the hail, the fall being sufficient to cover the ground.

The latter is the most remarkable occurrence in the history of Kentucky, the weather being at summer temperature both before and after the storm.

Success of Bourbon Boys.

Messrs. Edward Bedford and Fisher, the two Bourbon boys who purchased the State rights for the sale of the Franklin Butter Extractor, have made a success far beyond their sanguine expectations. They have already succeeded in selling almost the entire county rights of the State. This news will be exceedingly gratifying to the friends of these two most excellent young gentlemen, who are as worthy young men as can be found in the county. They have received numerous testimonials as to the merits of their churn, a few of which we produce:

PARIS, KY.

TO WHOM IT MAY CONCERN:

This is to certify that we are agents for the Franklin Butter Extractor in the counties of Bourbon and Bath, and we have sold and delivered in Bourbon county 48 churns and have sold about the same number of orders to fill as soon as churns arrive. We have only been in the business about two weeks and have never been away from the hotel and had no trouble in selling them. Everybody is well pleased with them. We sent a man to Bath county and he sold seven churns.

D. D. CONNORS and SISTER.

FRANKFORT, KY.

TO WHOM IT MAY CONCERN:

This is to certify that after expressing a doubt about the sale of the Franklin Butter Extractor to produce butter in ten minutes from perfectly sweet cream, Mr. Lester, of the Chicago Hardware Co., turned the churn over to me and I made butter myself in two minutes and twenty-six seconds from one-half sweet cream and one-half sweet milk. I consider the churn a wonder and a necessity to all butter makers.

E. B. WETZEL, Capital Hotel.

CARLEISLE, KY.

BEDFORD & FISHER, Paris, Ky.

DEAR SIRS.—We exhibited our churns in 10 days—making two churnings—on 15 seconds and one in one minute and thirty seconds. Have taken thirty orders.

Respectfully,

PARIS, KY.

TO WHOM IT MAY CONCERN:

This is to certify that Messrs. Bedford & Fisher brought their churn to my home to-day and made butter from morning milk in three minutes and fifteen seconds and from sour milk in four minutes and ten seconds and made very fine butter. I consider the churn a wonder and a necessity to butter makers.

MRS. ALEX. R. LOGAN.
